THE PRODUCT

TCS Advance Reservation Gold for hotels, guest houses, camping grounds and holiday centres.

A fully functional bedroom and location booking system, Reservation Gold includes an easy to use full colour graphical diary interface. Rooms and locations are coloured according to booking status, and it is easy to control new or existing bookings by simple mouse selections, using one of the many on-screen function command buttons. Date, customer name searches and on-line room/location statistics are also only one key-touch away and bookings can be moved easily from one location to another in seconds. Standard or Block booking entry is easy with Reservation Gold and any number of rooms/locations can be booked on any date in advance.

An optional Sales Ledger module allows payments to be posted to customer accounts, offering the facility to produce account statements, remittance advices and aged debtors reports

OUR ADVANTAGES

Our systems are designed completely in-house by our own software authors.
Direct access to our system designers is always possible. Often led by customer 'extra feature requests' new functions and facilities we think other customers may find useful are included in our standard software range.

- British in-house software design
- Built around the latest Microsoft Systems
- Quick and easy to use professional systems

TESTIMONIALS

"A great solution, we are immensely pleased the system provides just what we needed and required to speed up and provide the professional customer we were hoping for..."
Lora Smith

"Just what we were looking for, and so easy to use. A very professional system with many features we'd not even thought of. The training videos are brilliant.."
John Harris

"We're not sure how we ever managed without this system. We save so much time producing sales stats and management reports, and all at the click of a button..."
Jessica Priston
